

MANUFACTURER OF LIME POWDER

Company Profile

**Kange Mkurumuzi Block
26F Plot 1-3, Maweni, Tanga
Tanzania.**

COMPANY OVERVIEW

Introduction

Lavan Investment Limited is a trading company under the laws of the United Republic of Tanzania. It is designed to initiate a milling operation in Kange Mkurumuzi, Tanga Region, by quarrying, crushing, and processing limestone and other stone deposits. the entity aims to produce high-quality lime powder for agricultural purposes by subsequently crushing and milling in order to reduce the quarried rock to the fine particle sizes required for effective agricultural lime and other uses.

Our Value

COMPANY PROFILE PRESENTATION

Vision

To become a trusted supplier of lime used in agricultural practices and construction works in the country and exploiting opportunities for value addition.

Mission

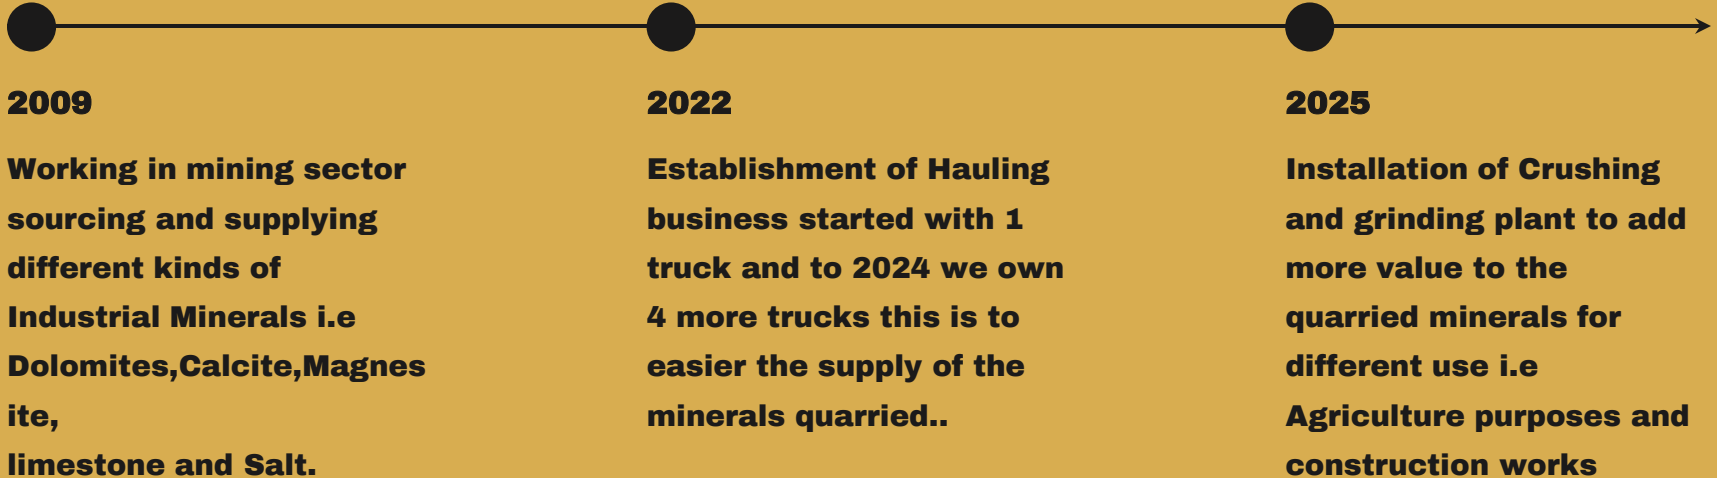

To enhance soil productivity and support sustainable construction through high quality mineral products by utilizing modern technology at highest standards of industrial practices.

Values

● **Quality Excellence:** delivering high grade lime powder bearing industry standards supporting agricultural and construction outcomes.

● **Customer-centered Service:** prioritizing our client's needs by offering responsive service and timely delivery ensuring a seamless experience.

Milestones

Core Services

Agricultural Products

- **Calcitic Lime** for soil pH correction.
- **Dolomitic Lime** for supplementing magnesium and calcium for crop health

COMPANY PROFILE PRESENTATION

Construction Products

- **Lime Powder** is known for its workability, breathability and natural chemical bonding with other building materials such as cement and wallput.

Our Team

Our team is made up of dedicated professionals with expertise in production, operations, compliance and client service. together , we ensure the consistent delivery of high-quality lime powder while upholding the highest standards of safety, efficiency and integrity..

Compliance Officer

Competitors

- **Bulk supply of construction aggregates**
- **Limited product testing and inconsistent quality**
- **Basic processing with minimal technological upgrades**
- **Region-specific distribution without wide coverage**

COMPANY PROFILE PRESENTATION

Our Company

- **Every batch is tested to ensure consistent CaCO_3 and MgCO_3 content, accurate grading, and dependable performance.**
- **Steady production capacity supported by advanced machinery, trained personnel, and a streamlined logistics chain.**
- **We practice responsible resource management, dust control and site rehabilitation**

Market Analysis

The demand for crushed limestone and dolomite in Tanzania continues to grow, driven by two key sectors; agriculture and construction.

COMPANY PROFILE PRESENTATION

Target Market

1

Agricultural sector

- Farms and agro-dealers
- Cooperatives and agricultural development initiatives

2

Construction sector

- Contractors and civil projects
- Hardware stores

3

Regional distributors

- Traders who supply both local and neighbouring markets

Legal and Compliance

- **Business registration**

The Company possesses a Certificate of Incorporation issued by the Business Registrations and Licensing Agency (BRELA) under the registration number **188909604**.

- **Licenses and permits**

Mining license, TFRA, NEMC, FIRE, OSHA, TBS.

Quality Assurance

All our materials undergo independent laboratory analysis by Crop Nutrition Laboratory Services (Cropnuts) and other certified labs like TFRA labs to verify **CaCO₃/MgCO₃** content, neutralizing value, particle size, purity and overall product performance. Each batch is supported by a Certificate of Analysis (COA) for full transparency.

We also conduct internal quality checks throughout crushing, screening and packaging to ensure correct grading and compliance with industry standards for both agriculture and construction.

Our Commitment to quality, regulatory compliance and continuous improvement ensures reliable products that meet our client's needs and national requirements.

TEST REPORT	
TEST REPORT NUMBER	CHL/103/2025-26
CUSTOMER DETAILS:	
CLIENT NAME:	LAVAN INVESTMENT LIMITED
CUSTOMER ADDRESS:	NA
COMPANY NAME	LAVAN INVESTMENT LIMITED
SAMPLE DETAILS	
Sample type:	Fertilizer
IPN No.	NA
Reference number:	TFRAL/2025-26/275 & 276
Site and position sampled:	NA
Date received:	17/11/2025
Date analysis initiated:	16/12/2025
Date analysis completed:	23/12/2025
Date issued	23/12/2025

Note: parameters with double asterisks shows that the parameters were outsourced to external laboratory.

The fertilizer samples were submitted to TFRA laboratory for its quality. Samples were given TFRA laboratory reference No: **TFRAL/2025-26/275 & 276.**

This test report applies ONLY to the samples brought to TFRA laboratory by customer for that specific type of testing. The results should not be regarded as representative of the quality of any commercial consignment nor be used for any commercial negotiations.

THE UNITED REPUBLIC OF TANZANIA
TANZANIA FERTILIZER REGULATORY AUTHORITY

TENTH SCHEDULE

(Made Under Regulation 13(2))

FERTILIZER DEALER LICENCE

Licence No LN/21-13316

1. By virtue of the power conferred to me under the Act, I hereby grant a Licence of fertilizer **Manufacturer** to **LAVAN INVESTMENT LIMITED** of **KANGE** area, **MAWENI** ward, **Tanga Jiji** (LGA), **Tanga** Region
2. This Licence shall be valid from **15 - Nov - 2025** to **14 - Nov - 2027** and may be renewed as prescribed in the regulations

Joel Laurent

Executive Director

This Licence is issued under the following conditions:

1. The holder of this Licence shall comply with other written laws.
2. The business should be undertaken at a registered premise.
3. Selling unregistered fertilizer shall result in fines, suspension or/and cancellation of this Licence.
4. This Licence is non-transferable.

THE UNITED REPUBLIC OF TANZANIA
TANZANIA FERTILIZER REGULATORY AUTHORITY

PREMISE REGISTRATION CERTIFICATE

Reg No PRN/21-2780

This is to certify that the premise owned by **M/S. LAVAN INVESTMENT LIMITED** with Licence No **LN/21-13316** Situated at **2140 TANGA**, Plot no. **1,3**, **KANGE** street / Village, **MAWENI** ward, **Tanga** District, **Tanga** Region have been registered to be used as a **WAREHOUSE**

Joel Laurent

Executive Director

21 - Nov - 2025

This Certificate is issued under the following conditions:

1. The holder of this Certificate shall comply with other written laws.
2. This Certificate is non-transferable
3. This certificate shall cease immediately if the registrant contravenes any condition
4. This certificate can be revoked, suspended and Cancelled
5. Fertilizers stored or sold at this premise must be registered otherwise with special permission from the Director

Technology and Equipment

Our operations are powered by advanced equipment, including Europeany-type trapezium mills, primary and secondary crushers, vibrating screens, and precision grading systems.

This advanced technology allows us to process materials such as limestone, dolomite, and other stones with exceptional efficiency and uniformity.

We routinely maintain and upgrade our equipment to guarantee steady output, operational safety and compliance with

Connect With Us!
